A QUOTE WILL BE PROVIDED IF YOUR CUSHIONS MEASURE MORE THAN 24"W X 25"D x 25"H. TEMPLATES / CUSTOM DIAGRAMS MAY BE NECESSARY WITH AN ADDITIONAL COST.

THE WAY TO MEASURE

To measure for replacement cushions, the customer must remove the cushions from the frame. We do not measure the old cushions as they can be out of shape.

FOR SEAT CUSHIONS: Measure the cushion area of your frame from left to right. Example: if the area is 72" wide, we will make (3) 24" cushions.

Next measure how deep you want your cushions. We suggest adding 1/2" so your cushions overhang from the front of your frame and your legs rest against the cushion instead of the frame. Finally, tell us if the back corners of your frame are square or rounded.

FOR BACK CUSHIONS: Measure from the bottom of your frame how **high** you want your cushions to be. We will compensate for the thickness of the seat cushions. Then tell us if you want the outside corners square or rounded.

THE THICKNESS OF THESE CUSHIONS IS APPROXIMATELY 5".

PLEASE NOTE THESE CUSHIONS ARE SPECIALLY MADE TO FIT YOUR FURNITURE AND ARE NOT RETURNABLE.
